Traditional Roller Fixing

Heating entire roller surface results in longer

warm-up time and higher

power consumption

MINIMAL DEVICE MAINTENANCE

On-Demand Fixing

to fixing film reduces

warm-up time and

saves energy

The Canon All-in-One Toner Cartridge 328 combines the photosensitive drum, toner reservoir, and waste toner container into a compact and precisely-engineered unit, making toner replacements easy and minimizes device maintenance.

QUALITY TONER ENGINEERING

Canon MS-Toner adopts a unique spherical shape to achieve smooth and consistent imaging quality. MS-Toner also improves melting performance, which complements and enhances the On-Demand Fixing process through the use of less heat and pressure.
